DETAILED ACTION

Allowable Subject Matter

1. Claims 20-43 are allowed.
2. The following is an examiner's statement of reasons for allowance: the prior art searched and cited failed to teach or fairly suggest a plasma analysis device for analyzing a gaseous sample within a plasma chamber, including a radio frequency power oscillator, disposed outside the plasma chamber, electromagnetically coupled to a place within the chamber and a spectral analyzer comprising a grating and a detector array, optically coupled to the optical window in combination with the rest of claim 20. Claims 21-43 are allowable because of their dependencies upon claim 20.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
